Banking Exam Mock Test Questions

BankPrep AI | Banking Exam Preparation Study Material
Version 3.0 | Last verified: 9 October 2026

Instructions

Try answering the questions before reading the answers. Suggested practice time: 35 minutes. This is a short practice set, not a full-length official mock exam. Questions 11 to 13 test current banking facts as of 9 October 2026. Questions 14 to 25 use question styles reported in recent 2026 exams. Practice questions in this file are original, written in the style of questions reported in recent exams. They are not actual exam questions.

Questions

1. What is 25% of 640?

2. Divide 450 in the ratio 2:3.

3. An item costs Rs. 500 and sells for Rs. 575. Find the profit percentage.

4. Find the average of 12, 18, 24 and 30.

5. Complete the series: 4, 8, 16, 32, __.

6. If BOOK is coded by shifting every letter forward by one, what is its code?

7. A person faces east and turns left. Which direction are they facing?

8. Choose the correct sentence: (A) She go home. (B) She goes home.

9. What is the full form of KYC?

10. What is the full form of CRR?

11. What is the RBI policy repo rate as of 9 October 2026?

12. What monetary policy stance did the MPC adopt on 7 October 2026?

13. What is the SDF rate after the 7 October 2026 policy decision?

14. Quantity I: 40% of 250. Quantity II: 25% of 360. Options: (a) I > II (b) I < II (c) I >= II (d) I <= II (e) I = II or no relation.

15. Find the missing number: 6, 7, 9, 13, 21, ?

16. What is A's present age? I. Five years ago A was twice as old as B. II. B is 15 years old now. Options: (a) I alone (b) II alone (c) either alone (d) both together (e) not sufficient even together.

17. I. x^2 - 5x + 6 = 0. II. y^2 - 7y + 10 = 0. Options: (a) x > y (b) x < y (c) x >= y (d) x <= y (e) x = y or no relation.

18. A can finish a job in 10 days and B in 15 days. How many days will they take together?

19. Four persons P, Q, R and S sit in a row facing north. P sits at the right end. S does not sit at either end. Q sits immediately to the left of R. Who sits at the extreme left?

20. Argument: The repo rate has been raised, so the EMI of every home loan borrower will rise. Which statement weakens the argument? (A) Many borrowers hold fixed-rate loans. (B) The repo rate is set by the RBI. (C) Banks give home loans. (D) EMI stands for equated monthly instalment.

21. Statements: All banks are institutions. Some institutions are old. Conclusions: I. Some banks are old. II. Some old are institutions.

22. Fill both blanks: The new policy aims to ____ the burden on borrowers and ____ economic growth. (a) reduce, boost (b) increase, hurt (c) reduce, harm (d) raise, slow.

23. Arrange in order: A. As a result, many people now prefer online platforms. B. Earlier, customers had to stand in long queues at banks. C. The introduction of UPI changed this experience completely. D. Today, a payment takes only a few seconds.

24. Find the error: Neither of the two applicants were selected for the interview.

25. Which rate is the ceiling of the RBI policy rate corridor after the 7 October 2026 decision, and what is its value?

Answer Key with Explanations

1. 160. Calculation: 640 x 25 / 100 = 160.

2. 180 and 270. Total parts = 5; each part = 90.

3. 15%. Profit = 575 - 500 = Rs. 75; 75 / 500 x 100 = 15%.

4. 21. Sum = 84; 84 / 4 = 21.

5. 64. Each number is multiplied by 2.

6. CPPL. B becomes C, O becomes P, O becomes P, K becomes L.

7. North.

8. Option B: She goes home.

9. Know Your Customer.

10. Cash Reserve Ratio.

11. 5.50 per cent. The MPC raised the repo rate by 25 basis points from 5.25 per cent on 7 October 2026.

12. Calibrated tightening, changed from neutral.

13. 5.25 per cent. The SDF rate is 25 basis points below the repo rate; the MSF rate and Bank Rate are 5.75 per cent.

14. (a) I > II. Quantity I = 100 and Quantity II = 90.

15. 37. Differences are 1, 2, 4, 8, so the next difference is 16 and 21 + 16 = 37.

16. (d) both together. From II, B five years ago was 10, so A five years ago was 20 and A is 25 now.

17. (e) x = y or no relation. x = 2 or 3 and y = 2 or 5. Comparisons go both ways.

18. 6 days. Combined rate = 1/10 + 1/15 = 1/6 per day.

19. Q. P = position 4. S cannot be at the ends, so S is in position 2 or 3. Q and R must be adjacent with Q on the left, which works only if S = 3, Q = 1 and R = 2. Order: Q R S P.

20. (A). Fixed-rate loans do not change with the repo rate, so not every borrower's EMI rises.

21. Only conclusion II follows. 'Some institutions are old' reverses to 'some old are institutions'; conclusion I cannot be drawn.

22. (a) reduce, boost.

23. BCDA. B introduces the earlier situation, C the change, D the present and A the result.

24. 'were' should be 'was'. 'Neither' takes a singular verb.

25. The Marginal Standing Facility (MSF) rate at 5.75 per cent is the ceiling. The SDF rate of 5.25 per cent is the floor.

Note: Answers to questions 11, 12, 13 and 25 reflect values verified on 9 October 2026 and will change if the RBI changes rates. Check rbi.org.in.
